REFERENCE(S) A. KOMA-411400, 7 April 1959 B. KOMA-42752, 3 June 1959 C. OIRA-14316, 1 August 1957 1. A recent report from the Munich Base advises us that the Base breached the possibility to UPSWING that Subject and Wilhelm KUEPPERS [] were one and the same person. The reply was quite startling and the following statement was made: "Of course DOHM and KUEPPERS are one and the same." When queried as to what basis the identification was made, the UPSWING reply was simply "We know it" and no further comment was made. 2. Munich Base believes that UPSWING has been working in close coordination with the Italians on this case because of its reported connections with the old Note Kapelle. The above information is accordingly for your information only and no further action is required unless the Station believes that additional information to that in reference C. may be secured through [] or perhaps []. We, of course, are very interested in any confirmation that the two are identical since we have a current operational interest in Subject. Any additional information on DOHM and/or KUEPPERS would be greatly appreciated. [] []
